Transnational and Local COMMUNITIES OF PRACTICE

NEARJET CoP

Discover the NEARJET Communities of Practice (CoP) and how you can design your own communities and follow our approach.

Transnational NEARJET CoP Members

Fifty VET practitioners from five EU countries. Focused on applied research. The NEARJET transnational CoP collaborated over two years to identify researcher needs, share insights, and create resources, aiming to establish a lasting network for innovation in VET.

NEARJET local CoPs clusters

In NEARJET five clusters (Cyprus, Greece, Italy, Sweden, Spain), organized local CoPs with practitioners who have focused on country-specific VET issues, holding workshops in national languages, and facilitated regular interaction with the NEARJET transnational CoP. This helped promote best practice sharing, and aligning local insights with broader EU strategies.

Thanks to all participants!
